

# LED Indicator Lights

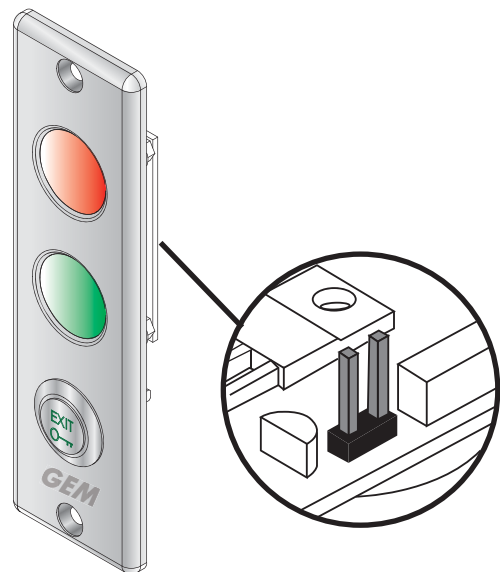

## Narrow Stile, Robust, Convenient

GEM TLM series LED indicator lights can be compatible with any access control systems. The red and green LED indicator provide visual confirmation when the door is locked or unlocked. They operate on 12/24 VDC and can be either mortise or surface mounted. The TLM-300/600-4 also includes an EXIT button to release an electrified lock.

With Jumper, the LED light remains in steady mode

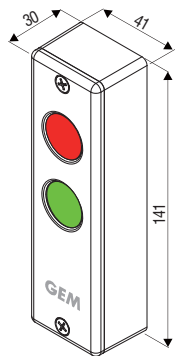

Without Jumper, the LED light remains in flashing mode.

## LED Indicator Lights TLM Series

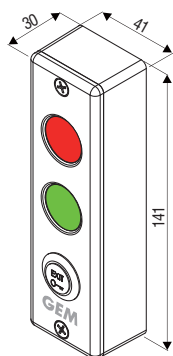

Models	Voltage (VDC)	Push Button	Switch Contact	2 Bulbs (Red & Green)	Mount	Faceplate Construction
