GK800 Series

Durable Strikes for Residential and Business

Electric Strikes

The GK800 series is a European electric strike designed for use with cylindrical or mortise locksets. It includes an optional latch monitor and is field reversible for fail-safe or fail-secure operation.

Standard Features

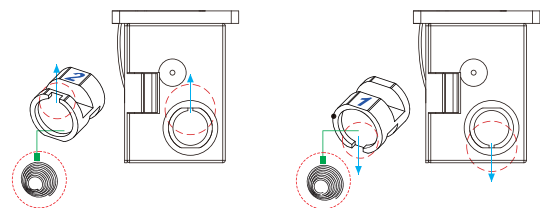

- Stainless steel faceplate
- Endurance 1,000,000 cycles
- Field reversible fail-safe or fail-secure
- Non-handed fully reversible
- Static strength 800 lbs (363Kg)
- Zinc alloy construction

Optional Feature

- Latch monitor

Changing Fail-Safe / Fail-Secure

Fail-safe or fail-secure is field reversible by reversing the round screw.

Fail-secure when "2" facing up.

Fail-safe when "1" facing up.

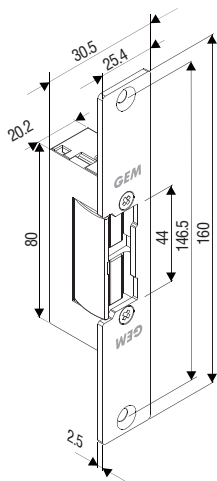

GK800 Series European Electric Strikes
