

Electric Strikes

GK231/233/236M Series

Weatherproof, Preload Solution

GK233M-R

GK231M-L

GK236M-R

GK236M-L

The GK231/233/236M series European electric strike is designed with its **high preload release capability** that allows smooth operation even under varying loads on the door, such as air-conditioning pressure, changes in the weather, warped doors or doors with weather stripping.

Standard Features

- Stainless steel construction
- Static strength 1,500 lbs (680Kg)
- No frame cutting required (For GK236M)
- Latch monitor (For GK231/233)
- Up to 500 lbs (227Kg) of preload
- Lock monitor
- Fail-safe
- Plug-in terminal block for quick and easy installation
- Adjustable keeper (except GK231)
- Handed (Specify when ordering)

Patents, Approvals, and Listings

- NF S 61-937 Compliant
