

# Wave Sense Infrared Exit Device

## RTS Series

### Touchless Switches Ensure Safe and Sanitary Egress

#### Standard Features

- Uses infrared sensor technology for contactless switch activation
- For sanitary environment such as hospitals, restaurants, bathrooms, or labs
- Operating voltage 12-24VDC
- Stainless steel faceplate (Brushed stainless steel faceplate for RTS700/800)
- Bi-color LED status indicator (Red/Green)
- Sensor range up to 5 15/16" (15cm)
- Relock delay timer
- Emergency signal input (Except RTS-500)
- Available with emergency exit button (For RTS-500)
