

Electric Strikes

GK1270 Rim Strike Series

Preload Solution for Rim Exit Devices

GK1270

The GK1270 ANSI electric rim strike series is surface mounted and designed with strength and durability for use with rim exit devices with a 3/4" (19mm) throw Pullman latchbolt. It features an optional latch monitor, and has a 3/4" (19mm) thick metal housing. No cutting on the frame is required for installation.

Field Selectable for Fail-Safe or Fail-Secure

The GK1270 series is field selectable for fail-safe or fail-secure operation, or for 12 or 24VDC.

Standard Features

- Field selectable 12 or 24VDC
- Field reversible fail-secure or fail-safe
- No frame cutting required - surface mounted
- Non-handed fully reversible
- Horizontal adjustment
- Static strength 1,500 lbs (680Kg)
- Dynamic strength 70 ft-lbs
- Endurance rating 250,000 cycles UL tested, 1,000,000 cycles factory tested
- Brushed stainless steel finish (US32D)

Optional Feature

- Latch monitor

Patents, Approvals, and Listings

- UL 1034 burglary resistant listed: R10269

Changing Fail-Safe / Fail-Secure

Fail-safe or fail-secure is field reversible by changing the position of screws.
